

I recall two things: a phone call or message was sent to Judy Farrell while members of her campaign were at her house making phone calls.

It was Amanda Mabo accusing Judy her phone volunteers were identifying as Tay Valley staff. Amanda stated she received complaints about this. Amanda also stated we were not to ask if they would support Judy. Cannot remember if we even asked that question. I do know in other provincial and federal elections we were instructed to ask this question.

We never identified ourselves as staff of Tay Valley. That was downright absurd and I was very upset. This would mean I didn't have integrity! What an insult!

Also through phone or email Amanda told Judy Farrell we could not use her place as a volunteer phone place as it was a polling station. Her reasoning was because you can vote by your home phone or internet therefore her house was like a polling station.

We did not make another call and we never met as a group to make calls.
