

TVT Integrity Commissioner. This site has provided overwhelming evidence of the TVT Integrity commissioner filing a false report, refusing to properly investigate a serious offence and when confronted with CAO Mabo's deception in providing evidence in the complaint and a remedy that did not occur. He referred the complainant to the Ontario Ombudsman in full knowledge nothing would happen. The 2025 report states there was one complaint. There were three. The three complaints with file numbers and dismissals required 17 pages of correspondence. The complaint with references are available here. The TVT Integrity Commissioner annual report portrays a false image of TVT. I only happened across the three complaints. How many others are hidden?

Dismissal 3 Dobbie

Rainer response:

A note on Dismissal three Dobbie. TVT Integrity Commissioner only accepted CAO, Amanda Mabo's narrative. He consulted no other witnesses. He effectively discounts the testimony of three TVT residents. He states no corrective action needs to be taken because TVT Deputy Reeve apologized. There was no apology, no mention in getting minutes of the incident or the apology. This Council approved the meeting minutes. The TVT Integrity Commissioner and TVT CAO Mabo are effectively calling three TVT residents liars. Upon receiving complaints from TVT residents of incorrect Minute postings and no record of a

Dobbie incident or apology, the majority of TVT Council are complicit in the coverup of Deputy Reeve Dobbie's despicable conduct. Further, Council refuses an open vote to determine who of the majority of Councillors approve this discreditable action.
