Further Pierman correspondance

Email exchange:

August 18,2025

Dear Mr. Lang,

Your TVT page is once again misrepresenting information and misquoted the CAO in reference to the $200, 000 legal fee or 10% and her telling Robyn "you do you". Those were **MY** words on a FB post from May 3rd **NOT** the CAO words. Could you please correct this with an apology to the CAO. You can even post this email showing that I am assuming responsibility.

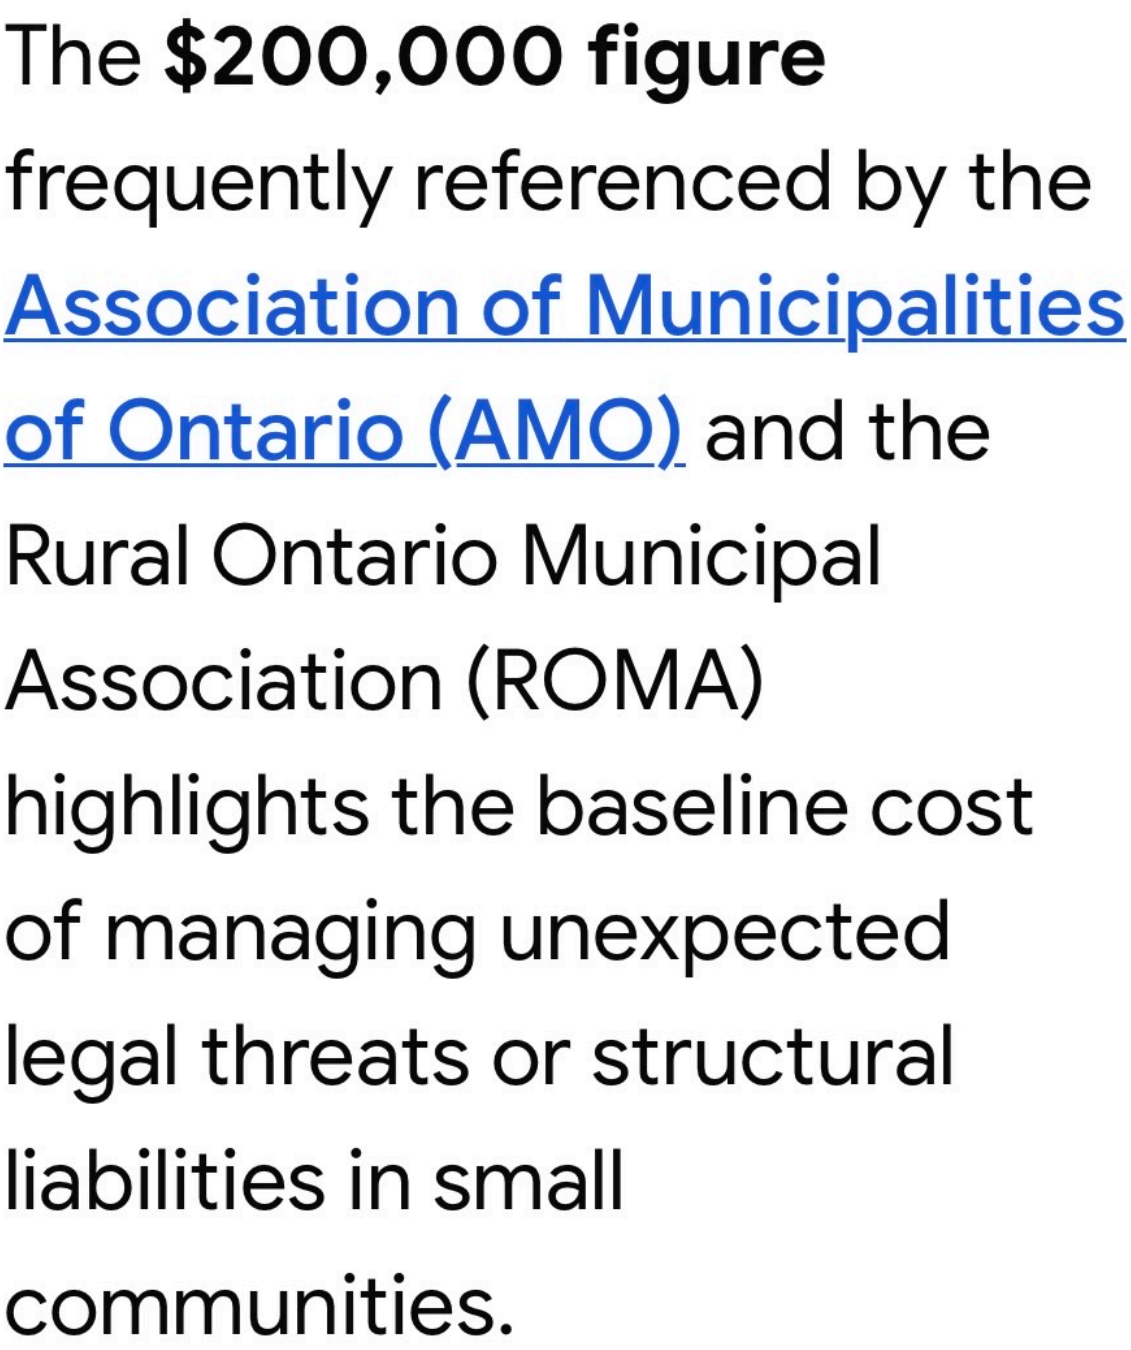

Because it was on FB and I do not believe in hiding behind keys and airing one grievance's publicly I did not go on and on. Whereas Ms. Robyn could do so for many times over. That's why I wrote "you do you".

I've attached just 2 pieces of wording you can use to get more concrete information around legal fees for municipalities. This is where I got the $200, 000 from. You and TVT accountability assistants can use these wordings, which I have not altered, to find more information on the web.
Directly applying them into AI mode is best.

This $200 000 amount is from larger more strenuous cases brought forth by residents (i.e. OLT cases), which is in the literature (AMO, ROMA).

Take care,
Angela Pierman

Dear Councillor Pierman:

I welcome your information. This site strives to report accurate information. The website has been corrected and the quote has now been attributed to you.

This site has been quick to change any inaccurate information posted. You state: "Your TVT page is once again misrepresenting information". Please take issue with any material. Please submit documented facts. Facebook ramblings and AI submission will not be considered. You and all others are welcome to submit referenced materials refuting any statements on this site. Council refused to address these serious issues in violation of their proscribed duties under the Ontario Municipal Act. Reeve Rob Rainer has stated that he will not now or ever respond to the facts on this website. He cannot. The facts are irrefutable.

The site corrections are not the standard of Tay Valley Township and your communications. Your Facebook page repeatedly states you received no report regarding the direct communication from the director of the Office of the Ontario Ombudsman. You received that material in the Council communication Package of Feb 5, 2025. the text of that letter is available on this site: Documents>Ombudsman>2025 03 12 Letter to Tay Valley.

Tay Valley has refused to amend any false reports. Ever!. Examples are well documented on this site.

You appear to prefer the sanctity of Facebook and AI over the journalistic research uncovering TVT legal expenses to be 250% higher than the average for similar sized municipalities.

John Lang

Dear Mr Lang,

Here is the truth:
You kept referring to an Ombudsman “Investigation and Report”. There never was a formal investigation and report issued as you made it out to be. I believe I sent you a copy of an actual length of an investigation and report which was completed by the Ombudsman.
You made a complaint and we received a letter. I even admit to that. It’s on one of my videos. This is considered, "an early resolution".
As per the issue at hand, I agree with the Ombudsman in that the roles need to be separate. I didn't act on it at the time because the township lawyer had excused himself on other IC matters in the past. And since then, many neighbouring municipalities have divided the roles.

I'm waiting to see the legal expense reporting.

Angela Pierman

Lang Reply August 19,2026

Have you changed your incorrect posting on your Facebook page?

You will not find detailed legal expense reporting from TVT. CAO Mabo refuses to release copies of invoices citing lawyer /client privilege.

You excuse the Integrity Commissioner for recusing himself. He did not in the Dobbie complaint. He accepted without investigation the portrayal of the incident from the CAO and remedial action that did not take place. You approved meeting minutes that made no mention of the incident or alleged apology.

You have no response to approving the false 2025 IC annual report.

Interesting how you support a COA who writes her own legislation to interfere in the 2018 Municipal election. She cites it is permissible because she had legal advice telling her such behaviour is correct. She refuses to reveal the legal source. Council takes no action.

You question the factual content of www.tvtaccountability.ca but make no effort to correct false TVT documentation.

Your Council demands civility in correspondence but refuse to enforce civility in Council chambers by Councillors.

Explain that to your constituents. I will be happy to do so.

John
