

Blueberry Creek Nature School

Eight years ago TVT issued a building permit for Blueberry Creek Nature School by mistake.

After a structure foundation was poured, TVT issued a Stop Work Order (SWO). TVT had not received clearances from the Rideau Lakes Conservation Authority for construction on a flood plain.

After an initial TVT/resident meeting following the SWO , no progress was made. TVT Staff was unresponsive to the resident requests for updates.

After the issue generated media attention, Council asked Staff for clarification.

TVT CAO Donaldson issued a written statement of the situation to Council. The statement was untrue, verified by an unconcealed audio recording made by the resident.

TVT Staff engaged the TVT Solicitor/Integrity Commissioner, Tony Fleming who delegated the investigation to a colleague to discipline the Councillor (Judy Farrell), who revealed the false statement of the TVT CAO. A shoddy investigation ensued ignoring pertinent evidence.

Eight years later, In September, 2025, TVT paid \$65,000 to the resident as a settlement subject to a non disclosure agreement.

TVT has spent an estimated \$500,000 in a series of frivolous, unwarranted legal actions brought against the resident only to exact revenge. The legal fees of the resident are \$250,000. TVT Staff refuse to reveal the legal costs to TVT.

A critique of the TVT Integrity Commissioner report can be found here:
