

TVT Staff Policies costs TVT Tax Payers \$Millions

TVT has approximately 4300 residences.

Legal expenses over a 7 year period are **250% higher than comparably sized municipalities.**

TVT 9 year vindictive persecution of Blueberry Creek School has cost TVT taxpayers more than **\$500,000**. TVT has also been court ordered to pay two awards of **\$65,000** and **\$25,000** in damages to the school in the last 12 months.

TVT policy on TVT owned but unassumed roads, not supported by legal precedent, has cost taxpayers **\$100,000** alone in a 2024 Ontario Land Tribunal (OLT). Staff, when faced with a court challenge agreed to virtually all resident objections. **Council did not question TVT walking away after investing in excess of \$100,000 in 2024 on this one hearing. Thus does not include legal fees of individual resident Superior Court actions. As the court date approaches TVT then grants the permit only if the resident signs a nondisclosure agreement.**

TVT Staff, citing false legal necessity, submitted a 2024 study resulting in a one time increase in Administrative Staff compensation of 66% (over \$400,000) with no new hires. **The 92% of the 2025 tax levy 7.5% increase was due to this one item.** Staff denied Council access to the entire study. CAO Amanda Mabo is paid more than 91% of all Ontario CAOs in 2024. Tay Valley Staff refused a Councillor request to examine the entire study. **TVT Council did not compel TVT Staff to release the full study.**

Council Members who voted on this 66% compensation increase were:

In favour:

Reeve Rob Rainer, Deputy Reeve Fred Dobbie, Councillor Angela Pierman, Councillor Greg Hallam, Councillor Marilyn Thomas, Councillor Wayne Baker.

Opposed:

Councillor Korrine Jordan, Councillor Andrew Kendrick (Deceased).

TVT 2025 budget repeated states that salary increase were 3.5% in 2024. No mention is made of the 66% increase in Administrative Staff Compensation.

TVT Planner Noelle Reeve has submitted grossly deceptive and biased reports and public statements unsupported by facts.

TVT Public Works Manager has lied to the public to justify denial of action or advice in an emergency situation on a TVT owned road.

TVT CAO/Clerk Amanda Mabo as chief returning officer unlawfully interfered in the 2018 municipal election campaign of one candidate. She defended her action by quoting Municipal Election Act sections that she fabricated. **Council has no questions.**

Tay Valley Residents Deserve Respect.

Resident Cathy Anderson's statement regarding behaviour of Deputy Reeve Fred Doobie at August 12, 2025 Council meeting.

"He then veered off into comments about rising property values and anticipated MPAC reassessments, seeming to become increasingly agitated both visibly and vocally. He stared at us steadily, and gesticulated towards us with his index finger pointing in our direction. With an elevated voice and tone, he said 'You people living on lakes had better be prepared for big increases in your MPAC assessments'. He further stated, 'You'd better be sitting down when you open those envelopes', and he warned us, 'Don't come crying to me when your taxes go up!'"

Find out how TVT handled this incident and much more at:
www.TVTaccountability.ca. Under "Dobbie Affair"

This is only a small portion of the factually supported evidence of mismanagement, dishonesty in TVT Staff over the last decade. The vast majority of Council refuses to respond to any of this information. They cannot. The referenced facts are irrefutable.
